GOD Says:

“When you need me
you remember me by my name

OMNMNKAAAR”

Download PDF

Introduction

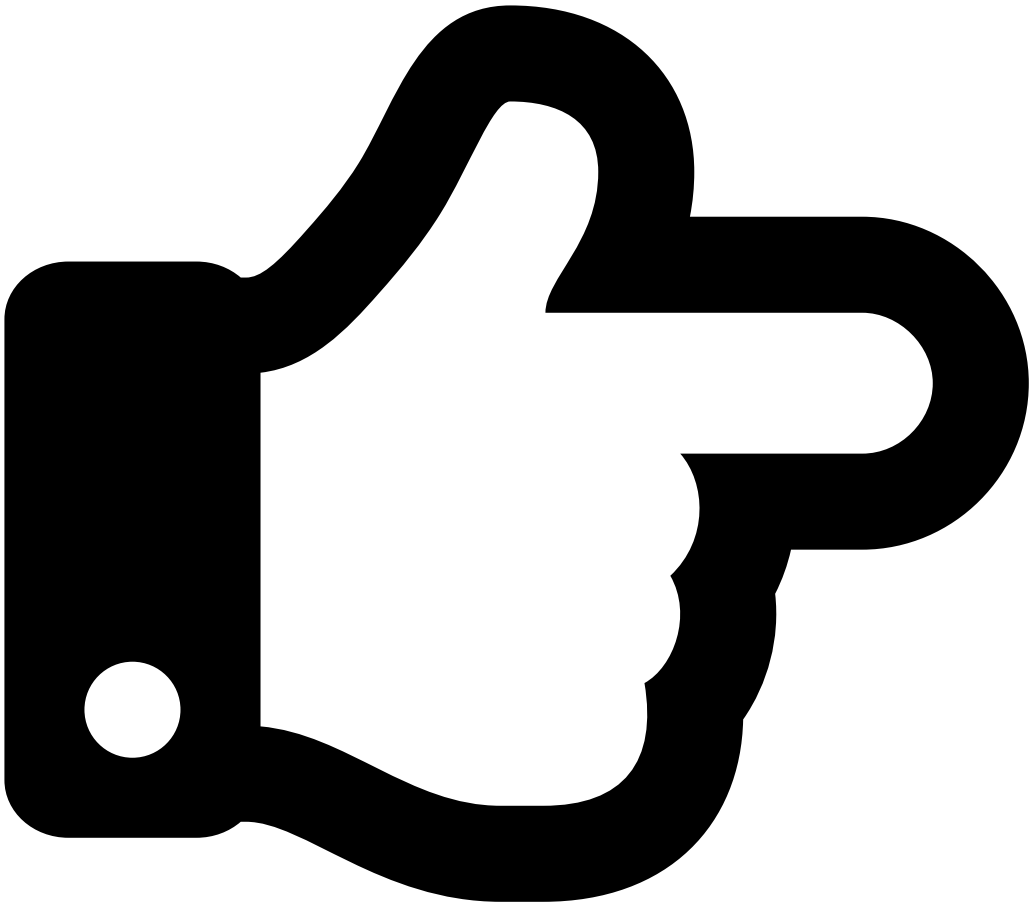

Throughout the history of the universe, the question which has been posed repeatedly is:

What is the purpose of my existence?

The answer is simple and is given in detail in the Act of Creation.

Every human being has an Atma resident within the body.

Each Atma has a Life Task which he or she has to carry out during his or her passage through life using the given body.

The DIVINE LAWS

GOD has laid down certain LAWS for all human beings.

These LAWS have been laid down for human beings to live in society and carry out the Life Task of the Atma.

Some of The DIVINE LAWS are given here.

The rest will be introduced as we progress on our path of learning.

The Teachings

Whatever has been said by GOD in HIS own words is given here in the form of The DIVINE Teachings.

The Teachings are the explanations, interpretations and applications of the different elements of The DIVINE Teachings to meet the requirements of questions and situations faced by human beings in their day to day life and activities.

The Teacher is available at Email: theteacheratchandigarh@gmail.com

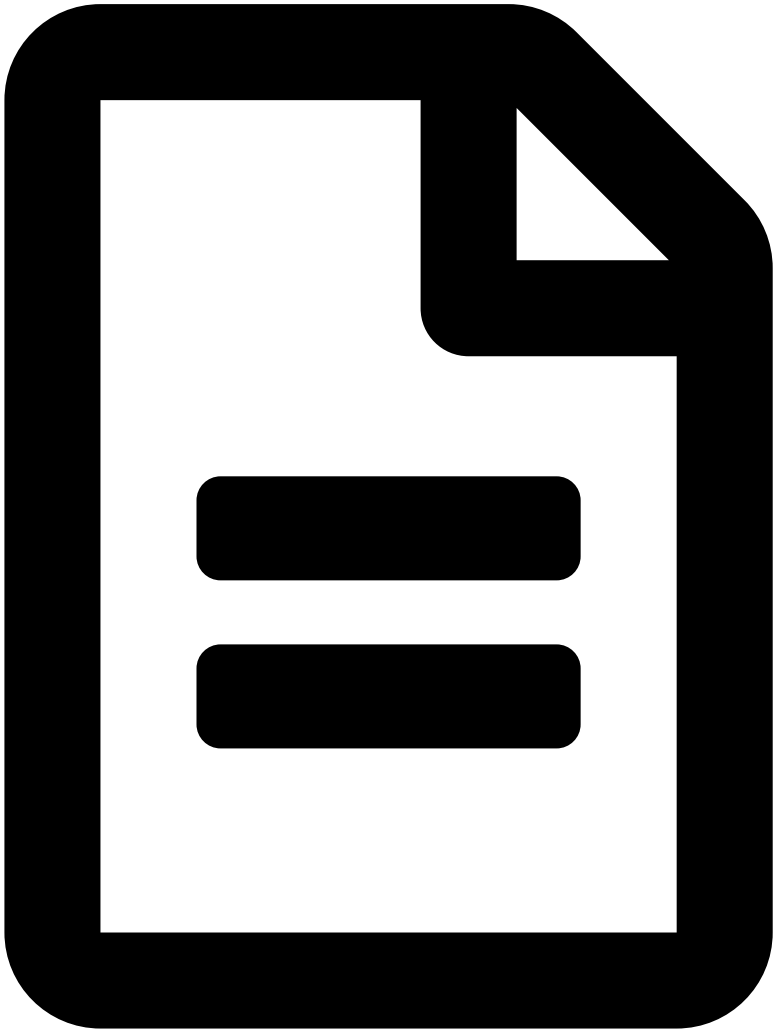

To draw full benefit from The Teachings, you must understand the correct interpretation, explanation and application of each term.

These are given in The Definitions.

Each Teaching may cover one or more aspects of the given situation or question. There is a Teaching available on every question that can be formulated; before you pose a question do read the Teaching on Questions and Answers here.
